

SCREEN *FAIR PLAY* TODAY!

Fair Play, a Jennifer Siebel Newsom Film, makes the invisible care work historically done by women **visible** so we can all have a better future!

This compelling documentary follows three families on their journey to find a balance at home. Along the way, we learn how even the smallest disagreements around dirty dishes are linked to systemic gender imbalances across the globe. Equality at home simply makes life better for couples, kids, families, and society.

Screen *Fair Play* for your organization today!
